

## Year 13 A Level Curriculum Sequence: Fine Art

**Intent:** To further develop students contextual study and independent enquiry techniques; encouraging students to explore and develop skills using wider range of materials and processes. This leads to students being confident and skilful in their own explorations as they complete their Personal Investigation journey, leading to ambitious outcomes in the ESA.

<b>Why independent project Development?</b> During this stage, students are focusing on developing a line of enquiry that will lead to a final piece. Teaching will be tutorial-based and students will be encouraged to explain their intentions. Students will be producing significant media trials, in response to the work of others and their theme.	<b>Why independent project: Realising Intentions?</b> Students will produce an ambitious final outcome, or series of outcomes, showing that they can complete a line of enquiry in a perceptive and coherent way.	<b>Why ESA?</b> Students create a project based on a selected starting point given by the exam board. The stages of this project repeat the stages followed in previous projects to meet the required Assessment Objectives.  Stages 1 and 2 focus on students gathering initial ideas, observational studies, photography/secondary sources and researching into relevant artists.	<b>Why Exam Unit?</b> Stages 3 and 4 focus on students exploring a significant range of media in the response to artists and in the development of ideas. Students evidence ideas and then produce final outcomes in 15 hours under exam conditions.	All Portfolio and ESA work is internally marked and marks sent the exam board by May 31 <sup>st</sup> .
