

Subject	Year 9 Photography		
Review	Review 1	Review 2	Review 3
Content covered	This introductory workshop phase aims to develop confidence in mastering the basics of manual camera settings. Including compositional rules, ISO settings and Shutter Speed.	Skills elements from review 1 to be explored through set project themes. -Analysis of the work of Photographers -Selecting and Editing -Projects developed through the theme of light and followed by the theme Macro.	Prior work stages to be revisited through the production of a project based on Portraiture and lighting techniques. Areas covered include: -Studio techniques -Planning -Editing -Independent Learning
Assessment method	Ongoing formative assessment as the task progresses. Graded assessment when each project stage is complete. Marked using GCSE numbered Grading criteria.	Ongoing formative assessment as the tasks progresses through teacher and peer feedback. Current Working Grade awarded as tasks are completed and as the 3D outcome is produced.	Ongoing formative assessment as the task progresses. Feedback and assessment as stages of final outcomes progress. Any areas of focus identified. Projects marked using GCSE numbered Grading criteria.
Teacher & Dept response	WWW and EBI feedback comments provided. Teacher identifies students' areas for development and provides in class support.	WWW and EBI feedback sheets and Next Steps to be completed. Lack of progress monitored, and a support plan put in place. Higher ability students provided with stretch and challenge opportunities.	WWW and EBI followed by time of Next Steps to refine work. Significant lack of progress will trigger a department support plan for students into Y10. Intervention / Extension opportunities discussed with students.
