

## GCSE GEOGRAPHY

Examination Board: Edexcel B

Course Specification: 1GB0

### What is GCSE Geography all about?

Studying geography will help you understand the world's people, places and environments from the local to the global scales. The skills and knowledge you gain from geography are relevant to almost all jobs & workplaces.

Geography is one of the most exciting, adventurous and valuable subjects to study today. So many of the world's current problems boil down to geography, and need the geographers of the future to help us understand them. Issues such as climate change, sustainable development, migration, environmental threats and social inequality.

### With a Geography GCSE you will be able to:

- ✓ Gain subject knowledge that is highly relevant to the challenges facing society and the environment today.
- ✓ Develop transferable skills including statistical analysis, analytical and research skills, critical analysis, ability to judge evidence and work across the social and natural sciences.
- ✓ Collect, understand and interpret complex data and communicate it to a variety of audiences.
- ✓ Tackle problems and examine big issues at a variety of scales and from different perspectives.
- ✓ Work in a team, through field research to develop your interest in how the world works.

### Course Structure

- ✓ We follow the new Edexcel B GCSE (9-1) specification which encompasses a wide range of contemporary themes and issues, so students can understand the world around us and what could impact its future.
- ✓ This exciting and relevant course offers an issues-based approach with content organised by UK and global geography. It also includes a decision-making paper, which allows students to investigate people-environment issues on a global scale.
- ✓ **Fieldwork** is an essential aspect of geography to consolidate and extend geographical understanding. There will be at least two UK fieldtrips that will form 15% of the GCSE along with the opportunity of an international fieldtrip to Iceland during 2018.
